PROFILE

Final-year CSE student who builds **full-stack web apps and AI tools** in Python and JavaScript, from a mental wellness platform with an AI companion to an NLP-based mock interviewer. Completed the IBM SkillsBuild ML & Applied AI internship. Seeking an **AI/ML or software development internship**.

INTERNSHIP

Machine Learning & Applied AI Intern (Virtual)
IBM SkillsBuild × BharatCares, with AICTE · 24 Aug – 30 Sep 2026

- Built **AI Skill Mentor**, an AI-based project, as part of the internship.
- Completed project-based assignments aligned with the UN Sustainable Development Goals.
- Learned and applied supervised, unsupervised, deep and reinforcement learning on real-world problems.

PROJECTS

AI Interviewer: Mock Interview & Scoring Platform
- Asks role-based questions (Software Developer, Data Analyst, AI/ML, Web Developer, HR) and evaluates voice or text answers.
- ML/NLP pipeline scores each answer and gives feedback, with progress tracking across sessions.
- Stack: Python, Flask, scikit-learn, NLP.

Serenity: Mental Health & Wellness Platform
- Mental health and wellness web app using HTML, CSS and JavaScript, with an AI companion chatbot (Sera), interactive games and a doctors directory.
- Games with particle effects, 3D card flips and confetti animations, plus profile and progress tracking.
- Rewards system with proof-based daily tasks (photo/note uploads, journal sync, digital detox lockout).
- Gratitude journal with rotating daily prompts, a star-gazing module with real constellations, and light/dark themes.

AI Career Path Recommendation System
- Recommends career paths from a user's skills, interests and academic background.

Portfolio Website
- Responsive personal portfolio designed with HTML, CSS and JavaScript.
